LUNAR LANDING - AW23'

LUNAR LANDING

A/W 2023

Edie Chung, the visionary behind FRISENGUYS, unveils his latest collection "LUNAR LANDING", which explores the designer's fascination with space with cyberpunk. The collection centres around a heroine who is forced to work for a lawless organisation that she is escaping from. As she travels further into the darkness of space, she enters a different realm where she truly belongs and is now in ultimate control.
